Bruno Ancona Sala

brunoanconasala@gmail.com · +52 (999) 903-3025 · Mérida, MX · linkedin.com/in/banconas · brunoancona.me

TECHNICAL SKILLS

Programming Languages: C, C++, Rust, Python, JavaScript, Go, PHP, Java, C#, SQL
Cloud & Tools: Google Cloud, AWS, Docker, Terraform, GitHub Actions, Linux
Frameworks & Databases: FastAPI, SvelteKit, Laravel, Flutter, PostgreSQL

WORK EXPERIENCE

Centro Universitario de Formación Artística (CUFA) - Software Engineer
Feb 2025 – present
- Built a Laravel/PostgreSQL system from scratch, turning stakeholder needs into production workflows
- Replaced a misaligned legacy system, bringing manual enrollment, academic and payment workflows into a platform used by administrative staff and professors
- Implemented idempotent payment registration and transactional safeguards, with regression tests for payment and academic rules

PROJECTS

SMMUN.com - Lead Software Engineer · github.com/brunoanc/smmun-gcp
- Built a FastAPI platform handling 500+ registrations on Cloud Run, Pub/Sub and Firestore; provisioned with Terraform and deployed through GitHub Actions
- Implemented idempotent intake, a transactional outbox and checkpointed workers to prevent duplicate submissions and recover from downstream failures

EternalModManager - Rust cross-platform app · github.com/brunoanc/EternalModManager
- Built and distributed a Rust/GTK4 mod manager for Windows and Linux, using background threads and message passing; 5k+ downloads on Flathub

Open Source Contributions – Linux Kernel · Microsoft DirectXTex
- Linux kernel: authored a merged ALSA/SoC quirk enabling the HP 14-em0002la internal microphone
- Microsoft DirectXTex: fixed incorrect image stride in R8-to-PNG export using libpng; merged upstream

CERTIFICATIONS, AWARDS & COMPETITIONS

Google Cloud Certified - Professional Agentic Architect
Oct 2026

Google Cloud Certified - Associate Cloud Engineer
Apr 2026

HackDef 10 CTF - 1st place nationally (80+ teams)
Oct 2026

OEA Cyber Challenge Mexico 2025 CTF - 1st place nationally (50+ teams)
Oct 2025

LEADERSHIP

AWS Student Builder Group Anáhuac Mayab - Director of Technology
Feb 2026 – present
- Developed and delivered an AI agent workshop to 30 students using Amazon Bedrock, Strands Agents, Lambda, DynamoDB and Terraform

Southeastern Mexican Model UN - Secretary-General
May 2026 – present

EDUCATION

B.S. in Software Engineering - Anáhuac Mayab University
Aug 2024 - May 2028
- Full-ride Academic Excellence Scholarship (GPA 9.8/10)
